

Chandra Pratap Singh

Full-Stack Developer | MERN | Next.js | Node.js

+919569225371 | sumitsnghtmr@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building scalable web applications using MERN and Next.js. Skilled in API development, authentication systems, and database design, with a strong focus on performance and user experience.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, TailwindCSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, PostgreSQL, Prisma, Mongoose

Tools & Concepts: Git, Cloudinary, Middleware, Auth & Authorization

Deployment: Vercel, Render, Cloudflare, Railway

WORK EXPERIENCE

Web Development Intern

Promosys Technology Pvt. Ltd., Lucknow | Dec 2025 – Apr 2026

- Developed and contributed to real-world full-stack applications using MERN and Next.js
- Improved debugging and problem-solving skills through hands-on project work
- Applied responsive design and modern development practices in production-level code

PROJECTS

AI Powered Code Editor | Next.js, TypeScript, Prisma, NextAuth

- Built an AI-powered browser-based code editor with real-time code execution using WebContainers.
- Integrated Monaco Editor for multi-file editing with syntax highlighting and IDE-like experience.
- Implemented AI-assisted features like code completion, debugging, and explanations using Groq API.
- Designed dynamic multi-framework template system (React, Next.js, Express, etc.) with runtime loading.
- Developed full-stack application with Next.js, Prisma, and NextAuth, and deployed on Vercel.

GigFlow – Freelance Marketplace | MERN Stack

- Built a full-stack freelance marketplace enabling users to post gigs, submit bids, and hire freelancers.
- Implemented secure JWT-based authentication with protected routes and role-based access control.
- Designed transaction-safe hiring logic using MongoDB transactions to prevent race conditions.
- Developed scalable REST APIs and deployed with environment-based configuration.

Cloudinary Video Compressor & Dashboard | Next.js, PostgreSQL, Prisma

- Built a SaaS-style platform supporting video uploads, auto-compression, playback, and file management.
- Reduced video file size by 40% on average using Cloudinary transformation workflows.
- Implemented Clerk auth with protected routes, enabling secure dashboard access for authenticated users.
- Designed and optimized PostgreSQL database schema using Prisma ORM.

Authentication App | Next.js, MongoDB, JWT

- Developed a secure authentication system with register/login, email verification, and password reset.
- Utilized JWT + bcrypt for encrypted authentication workflows, reducing unauthorized login attempts.
- Integrated Nodemailer for onboarding email verification, improving user onboarding completion by 25%.
- Deployed scalable application on Vercel with environment-based configurations.

EDUCATION

Bachelor of Computer Applications (BCA)

BBD University, Lucknow | 2023 – 2026

CERTIFICATIONS

Web Development Course — Udemy (Hitesh Choudhary)

May 2025 – Mar 2026

- Completed 100+ hours covering JavaScript, React, Next.js, TailwindCSS and Node.js, Express, MongoDB, PostgreSQL
- Built responsive projects and gained practical debugging experience
